

Can you make your own mini party hat?

Print this page and color and decorate the mini party hat! Then have a grown-up help you cut it out and fold the flap along the dotted line. Roll the hat into a cone shape and, using either glue or tape, attach the flap to the inside of the hat where the edges of the cone meet. Secure the hat to your head with a piece of string that's long enough to go under your chin when fastened to opposite inside edges of the cone.

Ta da—you're ready to celebrate!
